Govt. Registered Electrical Contractor

ABOUT US

Sahyadri Electrical Services is one of Maharashtra's electrical service providers, with Six years of experience in delivering detailed electrical engineering solutions and solar system O&M services.

Sahyadri Electrical Services is M.S.E.D.C.L and Government Registered Contractor.

As electrical service providers, we perform a wide range of electrification projects for residential, commercial, and industrial clients.

Our mission is to keep the power supply chain secure and convenient for our clients at all times. We endeavour to provide exceptional service as well as robust and dependable solutions.

We pledge to provide outstanding service and efficient work, as well as to improve electrical power in every manner possible and to anticipate the future issue.

We give you the best technical expertise and customer service throughout your relationship because we are passionate about clean energy. We are delivering the best service to our customer.

VISION & MISSION

OUR VISION

We aspire to be a global leader in the electrical industry, providing cost-effective, sustainable, and environmentally friendly energy solutions. Our vision is to deliver the world's best electrical services in terms of quality, price, and performance.

We aim to foster a balance between individual growth, social reinforcement, energy conservation, and strong industrial relations.

OUR MISSION

- ✓ Building a Reliable Power Network for our clients.
- ✓ Delivering Top-Tier Electrical Solutions for all sectors.
- ✓ Promoting Sustainability & Cost-Effectiveness through innovative and eco-friendly solutions.
- ✓ Ensuring Customer Satisfaction through continuous improvement and excellence.

QUALITY POLICY

We are committed to provide timely quality services for design, construction, testing, and the commissioning of equipment and other services to our clients. In particular, we are committed to

- ✓ Customer satisfaction.
- ✓ No compromise on quality.
- ✓ Continuous improvement of the quality system.
- ✓ Optimize quality and quality output from men and machinery.

The management is committed to upholding quality policy by following means.

- ✓ Action on customer complaints immediately.
- ✓ Training employees for switch gear and protection systems up to 33 KV
- ✓ Upgrading the tools and tackles.
- ✓ Licensed staff for a specific task.

PRODUCTS WE OFFER

TRANSMISSION LINE SOLUTIONS

Installation, maintenance, and upgrading of transmission lines and allied systems.

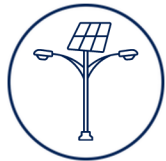

ON-GRID AND OFF-GRID SOLAR POWER PLANTS

Reliable renewable energy solutions for homes, businesses, and industries.

SOLAR PUMPING SYSTEMS

Efficient water pumping using solar energy, reducing dependency on conventional power.

SOLAR STREET LIGHTS

Cost-effective, self-sustaining lighting solutions for streets and public areas.

LED LIGHTING

Energy-efficient LED street lights: Enhancing road safety and reducing energy consumption.

TESTING PACKAGES WE OFFER

- All types Breakers testing Packages.
- All types Relay testing Packages.
- All type of testing Packages for Solar Pumping System.
- All type of Power and Distribution Transformer Testing Packages.
- Three phase and single-phase meter testing Packages.
- Earthing pit H.T / L.T testing Packages.
- C.T / P.T testing Packages.
- Transformer Oil testing Packages.

SAHYADRI

electrical services

Govt. Registered Electrical Contractor

SERVICES WE OFFER

INSTALLATION

- Outdoor Switchyard Equipment Installation & Commissioning (Up to 33 kV)
- Power & Distribution Transformer Installation and Maintenance
- HT/LT Transmission Line Erection and Commissioning
- HT/LT Underground Cable Laying and Jointing
- Substation, Bay & Earthing System Works
- M.S. & G.I. Structure Fabrication and Erection
- Solar Rooftop, Solar Street Light & Solar Pump Installation
- Electrical Turnkey (EPC) Project Execution
- New HT/LT Connections and Load Extensions
- Testing, Commissioning & Operation Maintenance Services
- Utility Approval and Liaisoning Support with MSEDCL
- Industrial, Commercial & Residential Electrical Solutions

PLANT BETTERMENTS AND MAINTENANCE

- Preventive Maintenance, Testing & Overhauling of Switchyards, Substations, Transformers, HT/LT Switchgear and Protection Systems
- Preventive Maintenance & Annual Maintenance Contracts (AMC) for Solar Rooftop, Solar Street Lighting and Solar Water Pumping Systems
- Earthing, Lightning Protection, HT/LT Cable Testing, Fault Detection & Electrical Safety Compliance Services
- Power System Studies, Energy Audits, Thermal Scanning, Load Balancing and Performance Optimization
- Breakdown Maintenance, Emergency Fault Rectification and 24x7 Technical Support Services
- Plant Upgradation, Renovation, Reliability Enhancement and Comprehensive Operation & Maintenance (O&M) Services for Electrical and Solar Assets

SAFE WORK

Follow strict safety norms and standards.

QUALITY ASSURED

Committed to quality in every project.

EXPERT TEAM

Skilled professionals with domain expertise.

ON-TIME DELIVERY

We value time and deliver on our promise.

SAHYADRI

electrical services

Govt. Registered Electrical Contractor

SERVICES WE OFFER

DESIGN & ENGINEERING

We provide customized electrical design and engineering solutions that meet industry standards and client requirements with safety and efficiency.

SUPPLY OF ELECTRICAL MATERIAL

We supply high-quality electrical components, switchgear, cables, and other materials from reputed manufacturers.

TESTING & COMMISSIONING

We conduct comprehensive testing and commissioning of electrical systems to ensure reliability, safety, and compliance with all regulations.

PROTECTION & RELAY SYSTEM

We design, supply, install, and maintain protection and relay systems to ensure the safety and stability of power systems.

SOLAR ENERGY SOLUTIONS

From rooftop solar to solar pumping systems, we offer end-to-end solar solutions to help you save energy and reduce costs.

ANNUAL MAINTENANCE CONTRACTS

We offer AMC to ensure smooth operation, minimum downtime, and extended life of your electrical systems.

SAHYADRI electrical services

Govt. Registered Electrical Contractor

WHY CHOOSE US?

At **Sahyadri Electrical Services**, we combine technical expertise, quality workmanship, and customer-centric approach to deliver reliable and sustainable electrical solutions. Here's why our clients trust us:

EXPERIENCED PROFESSIONALS

Our team of qualified engineers and skilled technicians bring years of experience and industry knowledge to every project.

QUALITY ASSURANCE

We use high-quality materials and follow strict quality standards to ensure safety, durability, and long-term performance.

TIMELY DELIVERY

We value your time and are committed to completing projects on schedule without compromising on quality.

COST-EFFECTIVE SOLUTIONS

Our solutions are designed to be efficient and economical, helping you get the best value for your investment.

CUSTOMER SATISFACTION

We believe in building long-term relationships through transparent communication, reliability, and excellent after-sales support.

FOCUS ON SUSTAINABILITY

We promote green energy solutions that help reduce carbon footprint and support a sustainable future.

Project

Our goal is to exceed client expectations by delivering safe, efficient, and **innovative electrical solutions** every time.

www.sahyadrielectrical.com

During FY 2025–2026, we successfully delivered high-quality electrical infrastructure, transmission, distribution, substation, utility shifting, and renewable energy projects across Maharashtra, demonstrating our commitment to excellence, safety, and customer satisfaction.

Here are some of our key projects:

01 22 KV BAY WORK

Client : Avaada Clean Project Private Limited

Successfully executed 33/22 KV Bay Extension and Associated Electrical Infrastructure Work at the NIRA Substation, Baramati for Avaada Clean Project Private Limited under the MSKVY 2.0 Scheme. The project involved complete erection, testing, commissioning, and integration of bay equipment required for reliable power evacuation from the solar power generation facility to the grid network.

Location: Baramati
Maharashtra – 413102

Year: 2025

02 22 KV LINE CONSTRUCTION WORK

Client : Avaada Clean Project Private Limited

Successfully executed 16 KM of 22 KV Overhead Distribution Line across various locations in Taluka Purandar (Jejuri Region), Pune District, for Avaada Clean Project Private Limited under the Mukhyamantri Saur Krushi Vahini Yojana (MSKVY 2.0).

The project was undertaken to facilitate reliable power evacuation and grid connectivity for utility-scale solar power generation. The scope included survey, erection of poles, conductor stringing, installation of line hardware, earthing systems, stay sets, guarding, and complete testing & commissioning of the 22 KV network.

Location: Purandar
Maharashtra – 412301

Year: 2025

03 11 KV LINE CONSTRUCTION & BAY WORK

Client : Praashgreen Energy Pvt. Ltd.

Successfully executed 5 KM of 11 KV Overhead Line Construction along with Associated Bay Infrastructure Works for Praashgreen Energy Pvt. Ltd. at Gat No. 738, Massa Kh, Taluka Kalamb, District Dharashiv. The project was undertaken to provide reliable grid connectivity and power evacuation infrastructure for the client's renewable energy facility.

The scope of work included route survey, erection of line structures, conductor stringing, installation of insulators and line hardware, earthing arrangements, stay sets, and complete testing & commissioning of the 11 KV overhead distribution network. In addition, bay-related works comprising installation of switching, protection, control, and metering equipment were carried out to ensure seamless integration with the existing power distribution system.

Location: Dharashiv,
Maharashtra – 413507

PROJECT COMPLETED

04

TRANSMISSION & DISTRIBUTION INFRASTRUCTURE DEVELOPMENT

Client : Starlight Electricals A.S.S.M., Jalna

successfully executed major electrical infrastructure works on behalf of Starlight Electricals A.S.S.M., Jalna, with a total project value of ₹5.42 Crore. The project involved comprehensive utility shifting and power distribution network development across various locations in District Jalna, Maharashtra. The scope included installation of 300 Sq.mm and 185 Sq.mm XLPE Underground Cable Highway Crossings, ensuring safe and reliable power transmission across road corridors. The company also executed 12 KM of 33 KV line shifting using AAAC conductors on RSJ pole structures and 6.66 KM of 11 KV line shifting as per MSEDCL standards. Additionally, 7.02 KM of LT distribution line shifting was completed to facilitate infrastructure development. The project included the relocation and commissioning of 200 KVA and 63/100 KVA Distribution Transformer Centres (DTCs) along with dismantling of existing HT/LT networks. All works were executed with strict adherence to quality, safety, and technical specifications. The successful completion of this project demonstrates Sahyadri Electrical Services' expertise in transmission line construction, underground cable systems, utility shifting, and power distribution infrastructure development.

Location: District Jalna,
Maharashtra – 431203

Year: 2025

05

33 KV, 11 KV, LT LINE & DTC SHIFTING PROJECT – GEORAI, BEED

Client : Starlight Electricals A.S.S.M., Jalna

Successfully executed a major 33 KV, 11 KV, LT Line and Distribution Transformer Centre (DTC) Shifting Project in Georai, District Beed, Maharashtra, on behalf of Starlight Electricals A.S.S.M., Jalna. The project was undertaken under the 1.3% Normative Charges Scheme of MSEDCL for the widening and improvement of the MDR-16 to NH-222 (MDR-20) State Highway Corridor. The scope included dismantling existing electrical infrastructure and constructing new power distribution networks along the revised road alignment. The work involved shifting of 12 KM of 33 KV lines, 6.66 KM of 11 KV lines, and 7.02 KM of LT distribution lines using RSJ pole structures and MSEDCL-approved materials. Multiple highway crossings were executed using 300 Sq.mm and 185 Sq.mm 3-Core XLPE Underground Cables, ensuring safe and reliable power transmission across the corridor. The project also included relocation and commissioning of 200 KVA and 63/100 KVA Distribution Transformer Centres (DTCs), installation of line hardware, earthing systems, and associated electrical infrastructure. All testing, commissioning, and energization activities were completed in accordance with MSEDCL technical specifications and safety standards. The project was delivered successfully while maintaining uninterrupted power supply and supporting critical road infrastructure development in the region. This achievement highlights extensive expertise in utility shifting, underground cabling, transmission and distribution infrastructure, and large-scale electrical projects out to ensure seamless integration with the existing power distribution system.
